- Stress-resistant frame, for both lightweight and durable.
- Special cutting legs, for brand new feeling touching.
- Removable legs. Mix and match with the rope.

Always have **MORE OPTIONS** for you

MILESTONE-MSOH

Different from other big lens models, this model design in another way. Function and fashion at the same time. Special shape for low bridge nose, perfect match flat face, to avoid wind and sand.

- Nice shape edge for windproof.
- Perfect match for the low bridge nose.
- Fish tail leg design, more stable for clinch.
- New look design, functional and fashion at the same time.

TERK-01

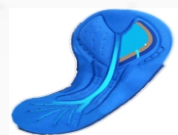

The short cycling jersey set combines function and fashion with profila dry fabric for a comfortable feel and superior road riding experience.

- Breathable and quick drying
- Bib style for non slip
- Good quality padded to protect hip
- Perfect designed for cycling

Breathable and quick drying fabric

Good quality polyester and lycra fabric to keep breathable and quick drying, allow riders to keep cool in bike riding.

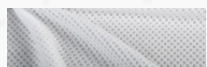

Good quality padded

Reduce the friction between hip and bike seat and protect hip during mountain riding.

Italy gel ribbon

non-slip, comfotable both fabric naples, another slip rubber band effect,not sliding.

Crescent moon shape mesh

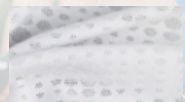

Moisture absorption, sweat-releasing

SKY-02

This SKY jersey offers incredible breathability thanks to the special crystal grid fabric on the front, while the innovative body fit fabric on the back and sleeves ensures a comfortable next-to-body fit.

- Professional mesh fabric
- Bib style for non slip
- Pocket in the back of jersey
- Anti-shock feature

Snowflake fabric

The snowflake mesh make you feel cool in summer,moisture aborption and sweat releasing.

Unbound sleeves

Good elasticity

Italy elastic interface pad

non-slip, comfotable both fabric naples, another slip rubber band effect,not sliding.

Silicone gel

Silicone leg grippers are gentle on the skin and work perfectly to keep the wear from rolling up with the muscle flex during bicycle riding.

BORA-01

Mixing sensible cycling-specific features and a bold style, this cycling top features ultra-breathable fabrics and top-level comfort for rides of varying length and intensity.

- Bamboo fiber
- Bib shorts design
- easy care and easy wear
- Multiple choice
- Italy gel ribbon

Bamboo Fiber

Made of natural bamboo fiber, light, breathable and comfortable, with good sweat absorption.

Flat lock stitching

Double flat lock stitching, make your bib shorts have more abrasion resistance

Italy gel ribbon

non-slip, comfotable both fabric naples, another slip rubber band effect,not sliding.

Good quality padded to protect hip

The bike shorts adopts padded design in the hip part which reduce the friction between hip and bike seat and protect hip during mountain riding.

RS-18

Breathable fabric and quick-dry, Well-fitting and comfortable, Lightweight, keep you feeling comfortable and dry

- Italy MITI mesh fabric
- Italian eco link
- YKK self-locked zipper
- Breathblity and lightweight

Italy MITI mesh material

Adopt Italy LIGHTWINGS mesh fabric, make it more breathability, comfortable and quick-drying.

YKK self-locked zipper

YKK self-locked zipper, lifetime warranty.

Italian eco link

Italian eco link, fine sublimation transfer printing.

Silicone grip

Good quality silicone grip avoids riding up.

RSA-MTB-01

This cycling shoes offers more securely wrap the foot, achieve the perfect balance of power and comfort.

- Upper: durable PU leather with breathable mesh
- High density nylon and TPU provides utmost comfort
- Mesh lining helps drain sweat from long time riding
- 3 classic triple hook loop straps put on and off easily
- Flexible forefoot and a running shoe beveled heel
- Cleat Compatibility: 2-bolts

Size: 39,40,41,42,43,44,45,46

CYCLING SENSOR

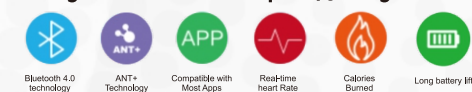

HEART RATE MONITOR BELT

This BT 4.0 technology supported heart rate monitor is very fashion and creative. It provides instant feedback of your heart rate and help you get more healthy exercises.

- Wireless transmission via integrated ANT+ or Bluetooth 4.0
- Track heart rate and calories burned accurately
- Comfortable and adjustable straps length from 44-80cm
- Operation distance: up to 10 meters
- Work with a most popular fitness APPs (Wahoo, Endomondo, Runtastic, Strava etc.)
- Low power consumption with a replaceable CR2032 battery.

Sensor Size: 81*34*12MM

Weight (Sensor+Strap): 45+18g

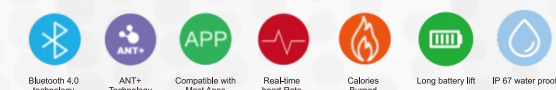

HEART RATE MONITOR STRAPE

Premium and comfortable to wear heart rate monitor strap intelligentized your life. You can take control of your own heart rate anytime, anywhere during sports.

- Wireless transmission via integrated ANT+ BT 4.0 technology
- Track heart rate and calories burned in real-time
- High quality chest strap, attach to your skin closely
- Receive distance: up to 10 meters
- Work seamlessly with 50 fitness APPs (Wahoo, Endomondo, Runtastic, Strava, IpBike, etc.)
- Low energy, light weight, waterproof and comfortable

Size: 66*38*14.5mm

Weight (Sensor+Strap): 14+31g

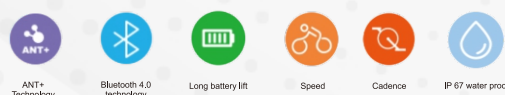

SPEED & CADENCE SENSOR

This Bluetooth smart cycling sensor, can detect cycling speed, cadence and distance. It's easy to install, simple to use, and extreme light weight. It helps your cycling efficiency and faster.

- Wireless transmission via Bluetooth 4.0 and ANT+
- Track cycling speed, cadence and distance
- Light weight, small size and easy to install
- Band onto wheel axle for speed mode, band onto pedal crank for cadence mode. If 2 modes at same time, requires 2 sensors
- LED light red to signal speed and blue to cadence.
- Low power consumption with a replaceable CR2032 button battery
- Compatible with most popular APP: (Wahoo, MAP MY RIDE, STRAVA, Zwift, etc.)
- Transmission range: 20m
- Peak speed: 700c 110km/h
- Water proof level: IP67

Size: 35*30*10mm

Weight (Sensor+Rubber+Tie): 10+4+2

RFP-02

- Intelligent Presta&Schrader,seconds to switch the Presta/Schrader valve.
- High capacity with preset pressure indicator;Max pressure can reach to 200PSI,quick inflating,much labor-saving.
- Conveniently numerical reading with barometer and preset pressure,can read the pressure easily.
- Good design for folder,can both fix the hose and handle well.
- Top design,beautiful appearance with comfortable wooden handle, fit to different people.
- Overlength hose helps air inflation easily.
- Recommendation Road Bike

Max Pressure	140 _{PSI}
Gauge Diameter	80 _{mm}
Hose Length	100 _{cm}
Weight	0.95 _{kg}

CO2 PUMP

RCP-01

Material: steel
Size: 30*112MM
Connection: Schrader&Presta
Weight:88g(w/CO2 cartridge)
Recommendation:Road Bike

- Small size with so light weight, easy to carry.
- Aluminium Alloy head, fit to both 16g and 12g CO2 cartridges.
- Considerate EVA cover, in case of freeze.
- Intelligent Presta&Schrader, seconds to switch the Presta/Schrader valve.
- Quick inflating, no need labor operation.
- Tire 25C, up to 120PSI.

RCP-02

Material: Aluminium
Size: 25*112mm
Weight:57g(w/o CO2 cartridge)
Accessories: Basketball Needle, Mounting bracket
Recommendation: Road Bike

- Small size with so light weight, easy to carry.
- Aluminium cylinder fit to 16g CO2 cartridge tank, also in case of freeze.
- Intelligent Presta&Schrader, seconds to switch the Presta/Schrader valve.
- Self-control pump air volume, high pressure does not leak.
- Quick inflating, no need labor operation.
- Tire 25C, up to 120PSI.

Suitable for 16g CO₂ Cartridge Tank
(for presentation only, not include in the price or dispatch)

RMP-05

Size: 14*325MM
Accessories: Mounting bracket
Recommendation: MTB

- Aluminium tube, nice and durable, long service life.
- 360 rotating hose helps air inflation easily
- with pressure gauge & deflation button
- Intelligent Presta&Schrader, seconds to switch the Presta/Schrader valve.

CYCLING HANDLEBAR & BOTTLE CAGE

REST HANDLEBAR - LENGTHEN

This rest handlebar is easy to install and the thick arm padding helps your arms rest comfortably in miles of riding. Enjoy your riding with this practical rest handlebar.

- Separated type aero bar
- Complete set,easy to install
- Made of high quality aluminum alloy, plastic and sponge cushion.
- Come with several metal half-turn sheet to suitable for thinner handlebar
- The rest pads can be adjusted from different angles
- Sponge cushion covers can be removed for cleaning
- Suitable for road bikes, long-distance mountain travel bikes, etc

Recommend for MTB bike or road bike
Weight: 650 g

REST HANDLEBAR

This bicycle TT handle bar with ergonomic design, provides utmost comfort in the long-distance cycling.

- Complete set,easy to install
- Made of light weight aluminum alloy, plastic and sponge cushion.
- Ergonomic design, strong and comfortable handle
- The rest pads can be adjusted from different angles
- Foam saddles are easy to take down and clean

Recommend for road bike
Weight:450g

BOTTLE CAGE

With this bicycle bottle case, it's perfect to reduce the weight and easier to hydrate yourself during long-distance riding.

- Made of high quality aluminum alloy, anti rust
- Ultra lightweight, elegant looks and easy installation
- Fits most standard size water bottles
- Secure firm hold with wrap around arm design
- Includes 2 mounting screws for attaching cage to bike frame

Recommend for MTB bike
Weight: 70 g

ZIRCONIA CERAMIC BEARING

INTRODUCE

IT CAN BE USED IN EXTREME HARSH ENVIRONMENTS AND SPECIALWORKING CONDITIONS. RINGS AND ROLLERS ARE MADE OF ZIRCONIA (ZRO2) CERAMICS AND HOLDERS ARE MADE OF PTFE AS STANDARD CONFIGURATION.

CAN BE USED IN DIFFERENT ENVIRONMENTS:
HIGH TEMPERATURE, HIGH SPEED, CRYOGENIC, FLAMMABLE, EXPLOSIVE, STRONG CORROSION, VACUUM, ELECTRICAL INSULATION, NON-MAGNETIC, DRY FRICTION, ETC.

DO YOU WANT TO USE PART OF SPACE SHUTTLE TECHNOLOGY?
