Dear traders,

Egerfish is a trading and manufacturing company based in the Czech Republic. Our main objective is to provide services for fishing tackle distributors. We want our customers to receive their goods on time, in the best quality, for a fair price. For the satisfaction of our customers we have a well-coordinated team with 29 years of experience in the fishing tackle field.

We are distributor for many brands, which are aimed for Czech market only. You can find them on the next pages. Beside these brands we promote our own brands SURETTI, SEMA and Rollo. In the products with these brands are contained our own ideas, our know-how, years on the market and experience of our fisherman. We would like to introduce these brands to fisherman outside of Czech Republic. For those we are seeking active distributors. We are able to offer attractive solutions and conditions.

A significant part of the company is manufacturing of fishing weights and feeders. Part of the production program you can find on the other part of our catalogue.

We wish all anglers to have nice experiences on the water. Our joy will be even greater if products distributed by our company contribute to this.

EMOTION TS BCS

Two speed reel with bait runner. Faster conversion can be used for downloading while feeding or long throws. Slower and hence stronger gears can be used to play a fish. When spinning, two speeds can be used in different spinning modes. Some baits need to be spin faster, others slower. By playing a fish you can use a slower, and hence a stronger, conversion.

- Two-speed planetary transmission with manual switching
- 6+1 stainless steel ball bearing
- ISS (Instant Stop System) eliminating the regressive slip of rotor
- Multi-disc front brake
- Aluminium spool
- Spare plastic spool

Rods Cartel Feeder L, M, H are based on the proven range of rods Cartel Special Feeder. Design and construction of the rods were upgraded. Blank has a C action, it operates over its entire length and is made of carbon fiber with a high modulus of flexibility UHM (Ultra High Modulus). Three-dimensional orientation of the fibers and Kevlar braid reinforced layer gives the rod very high strength, flexibility and endurance while maintaining a very low weight. Rods of this Material - UHM Carbon Construction Kevlar Pattern Reinforcement - are designed for specialists, who fishes feeder technique in standard and in extreme conditions. The handle is made of comfortable cork. Hardened RINGS have double wrapping. Very fine Feeder tips are made of solid and very resistant composite material - Solid Multifibre Construction. Thanks to the flexible actions 70, 90 and 120 grams and lengths from 3.3 to 3.9 meters chooses yours compliant model even demanding specialist. Rod is three-piece with three interchangeable tips stored in a protective tube. You can buy a replacement tips from line Force [1975***ES a 1976***ES with extended rings for long throws].

Included feeder tips: 3/4oz, 1oz, 2oz

THERAPY FEEDER

THERAPY FEEDER L

For rods Therapy Feeder we followed requests from some feeder angler concerning rods with a harder action, which is necessary in running waters, at long distance angling or in situations when fish is to be jammed and overcome quickly. Blank of rod is made of carbon fiber with high flexibility modulus UHM (Ultra High Modulus). The three-dimensional orientation of the fibers, together with the whip provides high strength and flexibility, while maintaining its low weight. The rods of this construction allow very good and accurate casts, an unnecessarily aggressive hack, but also gentle and sensitive playing the fish. Thanks to the ration quality / price enjoying these rods big popularity among anglers who likes feeder technique. Model Therapy Feeder is equipped with eight high-quality guides, cork handle and spinous joints. Part of the rod are three interchangeable very fine Feeder tips from solid and very resistant composite material - Solid Multifibre Construction, supplied in a protective tube. It is possible to purchase additional Emotion tips [1971 *** ES, 1981***ES, 1982 *** ES and 1972***ES, 1983***ES with extended rings for long throws].
Included feeder tips: 1/2oz, 1oz, 1 1/2oz

Rods Z-Force Feeder are designed for universal use thanks to throwing weight 70 grams. Blank of rod is made of carbon fiber with high flexibility modulus UHM (Ultra High Modulus with the firming braid - Crossed Fibre Reinforcement). The handle is made of comfortable quality cork combined with EVA material, hardened SIC RINGS are resistant and very fine feeder tips are made of a composite, full and very durable material - Solid Multifibre Construction. The rod can be used for medium-long casts in still and running waters. Three-sections rods are supplied with three feeder tips stored in a protective tube and are available in action 1.2 oz (14 g), 1 oz (28 g) and 1 1/2 oz (42 g). It is possible to buy spare tips from a Force [1975***ES a 1976***ES with extended rings for long throws]. Included feeder tips: 1/2oz, 1oz, 1 1/2oz

Rods X-Force Feeder have blank made of high performance composite material, which is inter alia used in aviation or for the bridge structure. Thanks this is rod very strong, light and flexible. Knitted fabric cured by epoxy polymer is reinforced by axial fiber, which improves reaction of rod when playing the fish and also improves his casting ability. Used material - Composite Construction Multifibre Internal Reinforcement also gives to rod great durability. Tips are very fine, made of solid and very resistant composite material - Solid Multifibre Construction, the handle is made of EVA and RINGS are hardened and resistant. Rods are particularly suitable for fishing at shorter distances and using lighter assembly. Who starts think over feeder fishing, or it just going to start, so for him is a model X-Force Feeder ideal choice. The rods are three-sections with three feeder tips stored in a protective tube, they are versatile and come in actions 1.2 oz (14 g), 1 oz (28 g) and 1 1/2 oz (42 g). It is possible to buy spare tips from a Force [1975***ES a 1976***ES with extended rings for long throws]. Included feeder tips: 1/2oz, 1oz, 1 1/2oz

Rods X-Force Picker have a blank made of high performance composite material, which is used in aviation or on the bridge structure. Thanks to this rod is very strong, light and flexible. Knitted fabric cured by epoxy polymer is reinforced by axial fibers, which improves reaction of rod when playing a fish, as well as his casting ability. Used material - Composite Construction Multifibre Internal Reinforcement gives to the rod great durability. The tips are very gentle, made of solid and very resistant composite material - Solid Multifibre Construction, handle made of EVA material and guides are hardened and resistant. Rods are particularly suitable for fishing at short distances, in hard-to-reach areas and by using of lighter assemblies. The rods have two-sections with three feeder tips stored in a protective tube, are versatile and are available in weights 1/2 oz [14 g], 1 oz [28 g] and 1 1/2 oz [42 g]. You can buy a spare tips from a Force series [1975***ES a 1976***ES with extended rings for long throws].

Feeder rod for beginners and occasional anglers. It has EVA handle and blank made of high performance composite material, which is inter alia used in aviation or for bridge construction, rod is very light and flexible. These properties are for the manufacturing of rod that category ideal. Knitted fabric cured by epoxy polymer is reinforced axial fiber, which improves reaction rod when playing the fish and it's casting capabilities - Composite Construction Internal Multifibre Reinforcement. This material additionally gives to the rod a great resistance. Very fine tips are made of a solid and very resistant composite material - Solid Multifibre Construction. Rods are particularly suitable for beginners and suitable for fishing in still and running water and fishing for medium distances. To „taste“ feeder style technique fish are perfect. It is possible to purchase additional tips from a Force series [1975***ES a 1976***ES with extended rings for long throws].
Included feeder tips: 1/2oz, 1oz, 1 1/2oz

THERAPY

TELE FEEDER M

„I use exclusively telescopes, but I want to catch on the feeder. What to do ? Very frequent sentence among fishermen. The solution is simple - Therapy Tele Feeder. This rod is designed for those who want to have a feeder rod with us with other telescopes and prefer small transport length of rods. We have tried to design a telescopic feeder rod that will be our actions and behavior in practice as much as possible resemble the split beam. We succeeded thanks to a carbon material with a high modulus and flexibility - UHM Carbon Construction Internal Multifibre Reinforcement, where a three-dimensional fiber orientation along with braiding gives the rod high strength and elasticity while maintaining its low weight. The members of this structure is very good and accurate casts, allowing an unnecessarily aggressive hack, but also gentle and sensitive land a fish. Very delicate feeder tips are made of a solid and highly durable composite material - Solid Multifibre Construction. Váhu rod, we managed to use better material reduced to very low levels, while the notch and control rod responds precisely, quickly and free of vibration and is very easy to him throws. The tip of the rod can be purchased from series Emotion [1971***ES, 1981***ES, 1982***ES and 1972***ES, 1983***ES with extended rings for long throws]. Included feeder tips: 1/2oz, 1oz, 1 1/2oz

EMOTION: Standard feeder tips made of composite solid material with a lower diameter of 4,7mm.

EMOTION LC: Standard feeder tips made of composite solid material with a lower diameter of 3.47 mm, fitted with larger erings designed for longer throws. This range has been expanded for actions 2.5 oz, 3 oz and 4 oz.

EMOTION CLC: Feeder tips made of carbon fibers with a lower diameter of 3.47mm, fitted with larger rings designed for longer throws. This range has been expanded for actions 2.5 oz, 3 oz and 4 oz.

EMOTION CARBON: The advantage of carbon tips is their lower weight, thus less influenced rod by casting and faster action by bite signaling.

EMOTION SH: Tips SH are extended by 12 cm (total 64 cm), through this was increased length, which signaling bite.

CARTEL CARP

A new evolution in the past very successful carp rods Cartel Carp brand Sema. Three-sections specials made of high quality carbon have slim blank, which gives to rods action approaching three-quarters of parabola. Obviously there are quality RINGS, when the first eye / first since the reel seat / has an outer DIA. 50 mm. Precise plug connection do not interfere action of rod that and allows long casts, but also allows sensitive playing the fish. Cartel Carp rods are provided in the length of 360 cm and in two variants of the test curve - 3 lb and 3 1/4 lb. Transport length is 126 cm. The rod Cartel Carp is full-value carp special enabling the directed fishing for carp in any conditions. The construction and materials used in the production push this rod at a high level while maintaining reasonable prices. The material of blank is made of carbon fibers with high modulus of flexibility UHM [Ultra High Modulus]. Three-dimensional orientation of the fibers and Kevlar braid reinforced layer gives the rod very high strength, flexibility and endurance while maintaining a very low weight. Rods made from this material - UHM Carbon Construction Kevlar Pattern Reinforcement - are intended for specialists.

CARTEL BOAT CARP

Directed fishing for big fish from boats is becoming increasingly popular. This is understandable, because not all parts of coastal vegetation allow to handling with fishing rod. If you own a boat and fishing from boats in your area is allowed - you can choose the perfect place for fishing at will. But - handling rods with a length of 360 cm is not easy on the boat. Therefore carp anglers - which are thinking about carp fishing from a boat - look round for shorter carp rods. And even for them is a rod Cartel Boat Carp. Two-sections carbon special designed primarily for carp fishing from a boat is offered in two versions: length 270 cm with the action 2.75 lb and length 300 cm with action 3 lb. It is very slim, lightweight rod with a plug connection, quality guides and cork ending. This ending is also equipped with a special metal ring in the recess handles. This ring is used for safety store the rod in the rear rod rest. This rod passed excellently in a difficult test. In despite of it is the rod designated to catch from boats, is very comfortable by casting. And even heavier weights for shorter distances. Thanks to these parameters we can say that particular model Cartel Boat Carp 300 cm / 3lb can also be used for carp fishing in the river. Shorter length of rod has its advantages in vegetated riparian forests and the handling with the shorter rod is in such conditions less complicated. Even shorter transport length of this rod / 156 cm / gives it an advantage in terms of transport. So let us surprise if the rods Cartel Boat Carp will stick out from carp anglers boats or eventually appear in the stands of river carp specialists anglers.

EMOTION TELE CARP

Some of carp anglers do not like a transport length of pole rods, or simply do not have the option to carry pole rods to the water. And even for them is the ideal choice Emotion Tele Carp. Blank of rod is made of UHM Carbon Construction Internal Multifibre Reinforcement. It is a carbon fiber material with a high modulus of flexibility. The three-dimensional orientation of the fibers, together with the braiding provides to rod high strength and flexibility, while maintaining its low weight. The rod of this construction is very good by casting and playing a fish. These rods passed excellently in a difficult test. They succeeded in extreme casting and at the same time they kept their very sensitive reaction by playing a fish. An experienced fisherman will be able to use them while fishing over long distances and those less experienced will very quickly learn to control them. So that the rod remained the most sensitive and the lightest - is fitted with lightweight metal reel holder, lightweight bonded rings (bottom the biggest ring has an outer diameter 38 mm) and below the reel seat has a non-slip rubberized grip. A combination of quality materials, careful processing, short transport length and reasonable prices make this model of rod satisfying a wide range of anglers who failed passion for carp fishing.

THERAPY TELE CARP

Some of carp anglers do not like a transport length of pole rods, or simply do not have the option to carry pole rods to the water. For them there are rods Therapy Tele Carp. Blank of rod is similar as by Emotion Tele Carp made of UHM Carbon Construction Internal Multifibre Reinforcement. It is a carbon fiber material with a high modulus of flexibility. The three-dimensional orientation of the fibers, together with the braiding provides to rod high strength and flexibility, while maintaining its low weight. The rod of this construction is very good by casting and playing a fish. Blank of rod is very durable, flexible and responsive. Unlike model Emotion Tele Carp model Therapy Tele Carp is fitted with conventional rings (lower a largest ring has outer diameter 38 mm) plastic reel seat and EVA handle. Therapy Tele Carp is a model possessing the perfect blank, solid supplements and offers quality carp telescope at a very reasonable price.

EMOTION CATFISH

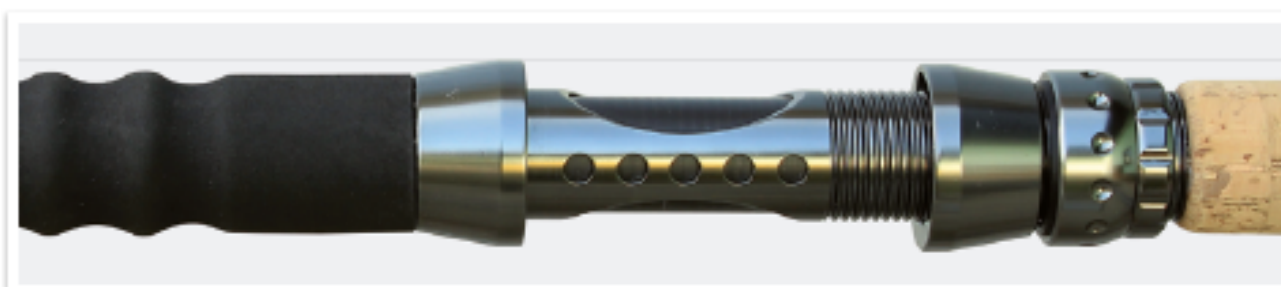

Parabolic action, toughness and durability of this rod was achieved by using of a composite material that is composed of carbon fiber and fiberglass. Carbon fibers with high modulus of flexibility (UHM - Ultra High Modulus) give to rod quick reaction and fiberglass high strength and durability. The combination of these two materials is ideal for extremely stressed rods used to catch big fish.

1731270ES	2,7 m	2	300-700g	141 cm	514 g	2,6 cm	9	1 pcs	

We rate this rod extremely successful. We spent a lot of time by developing and testing. Emotion Catfish is a two-sections rod with plug connection, length 240 cm respectively 270 cm and action 400 g respectively 700 g. Rod Emotion - possessing with nearly parabolic action - is equipped with a fixed hardened rings, which are - as well as by the model Therapy Catfish - deployed in sufficient quantity to allow rod to use in combination with a multiplier placed over the rod. The rod has a lightweight metal reel seat with tightening threaded ring fused further locking ring nut that locks wholly reel or multiplier in the holder. Rod is equipped with extended handle of the reel holder, which extends variants of holding the rod during the playing a fish. Emotion Catfish is compared with the model Therapy Catfish slightly tougher, thanks to the used material has a slimmer blank and - if you can call this word is used in the rod to load 700 g - even more sensitive to potential quick attacks of the fish. Emotion Catfish has cork handle which is extended at the end - ending is made of soft cork and has a flat bottom. And the reason? By playing a fish fishermen often rely ending of rod on thigh, hip or abdomen. Enlarged diameter of ending of this rod less pushed into these areas. Like the Therapy Catfish can also be used model Emotion Catfish for sea fishing.

THERAPY CATFISH

Parabolic action, toughness and durability of this rod was achieved by using of a composite material that is composed of carbon fiber and fiberglass. Carbon fibers with high modulus of flexibility [UHM - Ultra High Modulus] give to rod quick reaction and fiberglass high strength and durability. Therapy Catfish - catfish special with adequate parameters for playing a biggest fish. The two-sections rod made of high quality composite material. It is equipped with a handle made of EVA, high-quality rings, its plug connection and other auxiliary anti slip grip over the reel seat. This auxiliary handle allows safer holding the rod during playing a fish. Rings of rods are densely distributed so as to allow the rod used in combination with a multiplier positioned above the rod. Therapy Catfish is produced in lengths of 240 cm and 270 cm with loads of 500 g or 700 g. Length 240 cm is suitable for catfish fishing from boats using lures, length 270 cm is better suited for catfish fishing from shore using tear buoys or underwater float. This rod shows - especially in the variant 700 g - brutal combat power at almost parabolic action. Despite the fact that this rod is designed primarily for catfish fishing, surely its parameters satisfy even the specialists in sea fishing.

Rods Balance Unlimited 50 lbs were constructed for sea fishing and can be alternatively used for catfish. Material blank is Solid Multifibre Construction, which is full composite material composed of the axial fibers cured by epoxy polymer. This material is very durable and therefore suitable for the production of extremely stressed sea rods. The material ensures extreme solidity and resistance against shock and rough handling. We expect that this model of rod will in practice extremely stressed. And why is his connection designed to withstand fighting large sea fish predators. Directional Put Over Connection is a metal connection with a lock nut and screw with directional locking to prevent rotation of the tip against the lower part of rod. Extra Power Grip handle is designed to be good used the full potential of the rod. The rod has an elongated shaped handle that lever was the longest as possible and it enables to be able to playing a fish with large predatory fish. Ending of rod hidden under a rubber plug an adapter for the Butt Pad. AG rings are fitted with hardened frame structure and metal reel seat with locknut. Just - rod designed to an exceptionally big fishes.

Rods Unlimited Balance 300 and 500 were designed for sea fishing and can be used also for catfish. Ending of rod hidden under a rubber plug an adapter for the Butt Pad. Balance Unlimited 500 are fitted by AG rings with hardened frame structure.

THERAPY

ZEPHYR

Carbon rod Therapy Zephyr has been developed for the general fishing public. Almost every angler sometimes needs rod for float fishing. So you could, for example, itself caught baitfish, or just only to try the gentler style of fishing - waiting until the float is dipped ... Emotion is due to lightweight simple quick reel seat and lightweight SiC RINGS with long arm to prevent „sticking“ line off the rod body and allowing longer and more accurate casts. This rod is equipped with a special handle with non-slip superficial treatment that does not interfere with the rod properties, it is easy to hold, easy to maintain and ensure the proper balance and low weight. Blank is made of UHM Carbon Construction Internal Multifibre Reinforcement. UHM (Ultra High Modulus) is a carbon fiber material with a high modulus of flexibility. The three-dimensional orientation of the fibers, together with the sheath member provides high strength and flexibility, while maintaining its low weight. With the rod of this construction is very good to casts and playing a fish.

THERAPY TELE

Rods in lengths up 3.0 to 3.9 meters and actions 80, 120 and 150 grams are appropriate for all types of bottom-fishing. Thanks to short transport length are suited for traveling, so you can always have them with you. Rods were modernized, they have a new very pleasant, durable and easily maintainable grip with a special non-slip Anti Slip Grip. Lightweight RINGS Extras Casting Guides are with a large inner diameter. The first ring has an outer diameter 38 mm and is at the optimal distance from the reel, which reduces the friction of the line to a minimum and thereby increases the length of the cast. The tip ring is turned down through the sleeve, so as to protect the line from damage during loading. Metal reel seat keeps tight reel even while playing a huge fish. For the manufacture of the blank was used material UHM Carbon Construction Crossed Fibre Reinforcement.

BALANCE TELE

These rods will satisfy the majority of understanding fishermen fishing on streams, pools, ponds and other freshwater waters with smaller area. Rods have a very short transport length, well-placed rings without plastic lining with a sufficiently large inner diameter and pleasing appearance. The rods have a new very pleasant, durable and easily maintainable grip with a special non-slip Anti Slip Grip. Blank is made of high quality composite material Composite Construction Internal Multifibre Reinforcement, which is among others used in aviation or on the bridge structure, is very light and flexible. These characteristics are ideal for the production of the rod. Knitted fabric cured by epoxy polymer is reinforced by axial fiber, which improves reaction rod during playing a fish and casting capabilities.

- Color: green
- Capacity: 150m

Leader is cord braided from 8 threads with Teflon coating. Type stranding and use of eight threads makes it softer and more flexible. Teflon protects against abrasion and reduces friction. Therefore is gentle to the rod rings and easy for unspooling from reel. Through this is possible to achieve longer casts. Capacity 150 m is designed mainly for leader fishing.

- Capacity: 600m

Leader is cord braided from 8 threads with Teflon coating. Type stranding and use of eight threads makes it softer and more flexible. Teflon protects against abrasion and reduces friction. Therefore is gentle to the rod rings and easy for unspooling from reel. Through this is possible to achieve longer casts. Capacity 600 m is designed mainly for deep-sea fishing.

SHOCK & HEAVY SHOCK

Polyester and Dyneema fibres were used during the production. This combination ensures its sinking, high resistance, abrasion resistance and any dilatibility and shape remember. It is ideal like a casting braid or for making of shock rigs. You can use it as well as for trolling and for making of various rigs.

- Color: black-white
- Capacity: 50m

SHOCK

CODE	B/S	UNIT	NOTE
240080SES	25 lbs	11,4 kg	50m

HEAVY SHOCK

CODE	B/S	UNIT	NOTE
2401040SES	40 lbs	18,2 kg	50m

PHANTOM

A floatable Dyneema braid is of the green color combined of two shades. It is very fine and supple, with high abrasion resistance, intended for hook links creation during fishing on indented stony and grassy terrain.

- Color: green-white
- Capacity: 20m

CODE	B/S	UNIT	NOTE
241302SES	25 lbs	11,4 kg	20m
241303SES	30 lbs	13,6 kg	20m

EXCEL

Sinking braided line with black-white camouflage.

- Color: black-white
- Capacity: 20m

2422080ES	80 lbs	36,4 kg	10m	

VAMP

Hair braid hook link for the withdrawal of baits off the hook.

- Color: black
- Capacity: 20m

CODE	LBS	KG	UNIT	NOTE
2427000ES	8 lbs	3,6 kg	20m	

PHANTOM

Very smooth and fast sinking braided hook link in camo color for creating of classic carp rigs.

- Color: green
- Capacity: 20m

CODE	LBS	KG	UNIT	NOTE
242100ES	20 lbs	9,1 kg	20 m	
242100ES	30 lbs	13,6 kg	20 m	

CHIMERA

Fast sinking braided line with easy removable coating. After removal of coating arises smooth line with perfect presentation of bait.

- Color: green
- Capacity: 20m

CODE	LBS	KG	UNIT	NOTE
242400ES	20 lbs	9,1 kg	20 m	
242400ES	30 lbs	13,6 kg	20 m	

ASSEMBLER

Neutral buoyancy braided hook link to produce discreet rigs, which are necessary for fishing in the grass or algae vegetated waters.

- Color: green
- Capacity: 20m

CODE	LBS	KG	UNIT	NOTE
242502ES	25 lbs	11,4 kg	20 m	
242502ES	35 lbs	15,9 kg	20 m	

EXCEL LINE 300 M PACKAGE

EXCEL BRAID PACKAGE

INVISIBLE

Line whose individual braided threads are encapsulated in protective material to increase abrasion-resistance. This makes the classically coated cords finer by increasing its abrasion resistance. Suitable for use in extremely hard conditions.

- Color: brown
- Capacity: 20m

CODE	LBS	KG	UNIT	NOTE
242601ES	15 lbs	6,8 kg	20 m	
242602ES	25 lbs	11,4 kg	20 m	

CATFISH

100% PE finely braided line for catfish rigs. During fishing you will appreciate its softness, strength, no ductility and abrasion resistance.

- Color: brown
- Capacity: 20m

CODE	LBS	KG	UNIT	NOTE
242801ES	150 lbs	68,2 kg	20 m	
242802ES	200 lbs	90,9 kg	20 m

EXCEL LINE COMBO SHOCK CARP

- Color: orange - green
- Capacity: 300m

CODE	DIA	B/S	UNIT	NOTE
2003S2ES	0,22 mm	4,1kg/13,6kg	300 m	
2003S2SES	0,25 mm	8,4kg/18,2kg	300 m	
2003S2SES	0,28 mm	9,85kg/22,8kg	300 m	
2003S3ES	0,30 mm	11,9kg/22,8kg	300 m	

The line is fluorescing orange, while casting and playing fish is clearly visible, so you always have the situation under control. Line is green in color of water plants to don't scare fish. Due to the higher load capacity you can cast with higher force and due to the absence of a knot between fishing line and hook link is not reduced load capacity of line so you can use a smaller diameter. Combining these advantages you will achieve significantly longer throwing.

PVA STRING

Dissolvable line used for the distribution of bait close to the hook. Simply string the bait on the line and place on the hook. As soon as the line reaches the bottom, it dissolves, leaving the bait lying free by the hook.

CODE	SOLUBILITY	BRAND	UNIT	NOTE
2900110ES	15 s	Suretti	50 m	
2900120ES	30 s	Suretti	20 m	
2900130ES	50 s	Suretti	20 m	

PVA TAPE

PVA strip necessary to tie PVA bags and mesh tubes.

CODE	WIDTH	BRAND	UNIT	NOTE
2900230ES	3 mm	Suretti	5 m	
SE2900230	3 mm	Sema	5 m	

PVA BAG

This soluble sack enables distributing the powdery bait in a close distance from the hook. As well as the soluble strings, the sack dissolves after reaching the bottom; the bait then lies at the hook.

CODE	WIDTH	LENGTH	UNIT	NOTE
2900310ES	70 mm	200 mm	10 pcs	
2900320ES	100 mm	150 mm	10 pcs	

PVA BAG PERFORATED

This soluble sack enables distributing the powdery bait in a close distance from the hook. As well as the soluble strings, the sack dissolves after reaching the bottom; the bait then lies at the hook.

CODE	WIDTH	LENGTH	UNIT	NOTE
2900330ES	60 mm	150 mm	10 pcs	
2900340ES	70 mm	190 mm	10 pcs	

USING:

- Pour dry, loose bait, such as pellets or crushed boilies, into a bag. Fill more than half the bag.
- Place a weight in one side of the bag and the hook with the bait in the other.
- Fill up the rest of the bag with bait in an amount so that you will be able to close and tie it.
- Roll the bag between your palms into a ball and tie the top with PVA tape.
- Turn the bag upside down, pour the mix out of the corners, wet the corners and stick them to the bottom of the bag to prevent resistance when casting.

PVA MESH TUBE

This soluble mesh tube enables distributing a larger amount of the bait in a close distance from the hook. As well as the soluble strings, the sack dissolves after reaching the bottom; the bait then freely lies at the hook.

CODE	WIDTH	LENGTH	UNIT	NOTE
2900410ES	25 mm	5 m	1 pcs	
2900420ES	37 mm	5 m	1 pcs	

USING:

- Tie the nylon at the bottom part. You can make a knot directly on the nylon, or use PVA tape.
- Pour the required amount of dry bait into a tube.
- Stuff the bait from the tube into the nylon.
- Tie the nylon above the bait. Again, you can make a knot directly on the nylon, or simply use PVA tape. Cut the nylon just above the knot.
- Now you are ready to bait your fishing area.

PVA MESH TUBE ON SPOOL

Rig with a braided loop on one side and a snap and swivel on the other is made of coated braided steel wire 7x1.

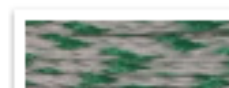

DOUBLE RIG

CODE	LENGTH	B/S	HOOK	UNIT	NOTE
SEB122017	8 cm	11,4 kg	2/0	2 pcs	

A very popular carp rig after the feeder. Thanks to its short length, after a cast the hook with the bait are exactly at the place of the feed spilled from the feeder. Fish sucking in the feed will then suck in the hook with the bait as well.

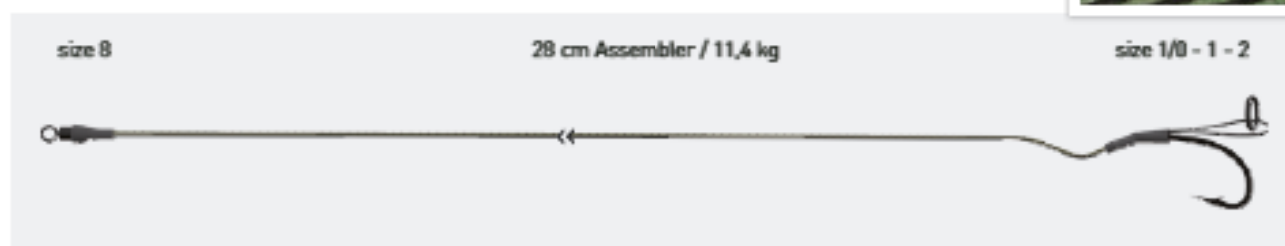

WEED PHANTOM

CODE	LENGTH	B/S	HOOK	UNIT	NOTE
SEB123066	32 cm	13,6 kg	1/0	2 pcs	
SEB123065	32 cm	13,6 kg	1	2 pcs	
SEB123064	32 cm	13,6 kg	2	2 pcs	

A boilie leader suitable for stretches with a dense stand of aquatic grasses or with a muddy bottom. It is fastened to a strong monofilament line and Phantom line with green-and-white camouflage and with a China hook. The size of the swivel is chosen for lead clip. A floatable Dyneema braid is of the green color combined of two shades. It is very fine and supple, with high abrasion resistance, intended for hook links creation during fishing on indented stony and grassy terrain.

D-RING ASSEMBLER

CODE	LENGTH	B/S	HOOK	UNIT	NOTE
SEB123076	28 cm	11,4 kg	1/0	2 pcs	
SEB123075	28 cm	11,4 kg	1	2 pcs	
SEB123074	28 cm	11,4 kg	2	2 pcs	

A boilie leader suitable mainly in the event that fish bite very cautiously and spit the bait out when there is the slightest resistance. Hanging of the bait on a ring does not rotate the hook, which is then set better. It is used when fishing with a „Snowman rig” or with floating boilies. A fine sinking braid twisted of Dyneema and polyester fibres with none stretch, good abrasion resistance and very high knot strength.

Ultra-stiff forged Japanese FUDO hooks are made of high carbon steel. Their precisely shaped point has fast and precise penetration, anti-corrosive coating and a high level of flexibility. Any fish that feels this hook will have no way to get out. This hook will penetrate the fish's mouth at the speed of a bullet.

FUDO HOOKS

HOOKS TRADE PACKAGING IS 10 BAGS

Ultra-stiff forged Japanese FUDO hooks are made of high carbon steel. Their precisely shaped point has fast and precise penetration, anti-corrosive coating and a high level of flexibility. Any fish that feels this hook will have no way to get out. This hook will penetrate the fish's mouth at the speed of a bullet.

PICTOGRAMS:

TRIPLE EDGE - the point formed of three blades. The whole point is formed of three blades with different angles making the spike not only sharp but also stiff, flexible and durable. A sharp tip pierces without resistance, as do the other tips, then the sharp edges impale their way smoothly without resistance.

TRUST GRIP - another very important part of the hook is the eye, the place for attaching the line. Although providing that the knot is tied perfectly monofilament tends to strangle, which lowers its capacity.

That is why the eye has a notch for leading the line. Thanks to anchoring, the reduction of the cut is minimized and the knot strength is increased.

TUBES AND BEADS

SHRINKING TUBE

CODE	SIZE	COLOR	UNIT	NOTE
453111ES	1,2mm	green	10 x 5cm	
453112ES	1,2mm	brown	10 x 5cm	
453113ES	1,2mm	gray	10 x 5cm	
453121ES	1,6mm	green	10 x 5cm	
453122ES	1,6mm	brown	10 x 5cm	
453123ES	1,6mm	gray	10 x 5cm	
453131ES	2mm	green	10 x 5cm	
453132ES	2mm	brown	10 x 5cm	
453133ES	2mm	gray	10 x 5cm	

As an extension of the hooks shank, it helps the rig to catch hold in the mouth and keep it there during the fight. It blends naturally with bottom debris for ultimate discretion. Shrinking ratio 2:1, temp. 80°C.

ANTI TANGLE SLEEVE

CODE	SIZE	COLOR	UNIT	NOTE
452205ES	40mm	brown	10 pcs	

40mm tapered sleeves which can be cut down to size required, push over swivel to keep hook link material away from lead during casting, creating the perfect anti tangle system.

LINE ALIGNER

CODE	SIZE	COLOR	UNIT	NOTE
4522061ES	20mm	green	10 pcs	
4522062ES	20mm	brown	10 pcs	
4522063ES	20mm	gray	10 pcs	

The Line Aligner Adaptor makes creating a line aligner rig totally foolproof. The sleeve simply slides over the shank and eye of your hook to kick out the hooklength and give the perfect aggressive hooking angle. These line aligners are designed to add a new effective way to hook rigshy fish. The line aligners allow the angler to increase the gape of the hook quickly and easily. The line aligners help turn the hook faster ensuring a firmer hook hold.

PVC TUBE

CODE	SIZE	COLOR	UNIT	NOTE
453101ES	0,75x2mm	green	2m	
453102ES	0,75x2mm	brown	2m	
453103ES	0,75x2mm	gray	2m	

Thanks to the accurate fitting you can optimally assemble inline lead, safety clip and the PVC tube. All carp components are compatible. Due to its weight, the tube together with the line sinks to the bottom.

TUNGSTEN TUBE

CODE	SIZE	COLOR	UNIT	NOTE
453121ES	0,6x1,85mm	green	1m	
453122ES	0,6x1,85mm	brown	1m	

This creates a rig tube that is four times heavier than leadcore. Loaded Rig Tube sinks quickly and lies flat on the bottom. The enhanced wall thickness provides superb line protection and the 0.6mm bore will accommodate mainlines up to 20lbs, threading easily even when wet. Weight is 9,5g/1m.

BEAD TAPERED BORE

CODE	SIZE	COLOR	UNIT	NOTE
452104ES	6mm	2 color mix	20 pcs	

The hole inside the bead is tapered so if it is fished with the larger hole facing towards the rod then it will pass more easily over a leader knot.

BEAD KNOT PROTECTOR

CODE	COLOR	UNIT	NOTE
452201ES	2 color mix	10 pcs	

Designed to push over the swivel to protect knots. Made from quality rubber, it is high resistant and elastic.

SILICON TUBE

CODE	SIZE	COLOR	UNIT	NOTE
4531021ES	1x2mm	green	1,5m	
4531022ES	1x2mm	brown	1,5m	
4531023ES	1x2mm	gray	1,5m	

The silicone tube can be as well used for the fixation of the hair to the hook as for the protection of knots, sliding rigs and many more. The tube is very durable and survives also mounting to the hook.

RUBBER BEAD

CODE	SIZE	COLOR	UNIT	NOTE
452104ES	6mm	3 color mix	30 pcs	
452108ES	8mm	3 color mix	30 pcs	

Soft rubber beads with calibrated hole 1mm. They absorb shock to minimize knot damage. Available in 6 and 8mm.

BEAD TULIP

CODE	COLOR	UNIT	NOTE
4522011ES	2 color mix	10 pcs	

Smooth flowing rounded design removes edges around the swivel that may cause the hooklength to tangle. Flexible stepped bore will accommodate swivels up to size 8. Robust rubberised construction.

BEAD BUFFER BALL

CODE	SIZE	COLOR	UNIT	NOTE
4522021ES	15mm	2 color mix	10 pcs	

Robust rubberised construction acts as a buffer for helicopter rigs or as a component for making tidy and effective tangle-free running rigs. Designed for use with size 8 swivels.

PRODUCTS TRADE PACKAGING
ON THIS PAGE IS 10 PCS

BEAD BULLET

CODE	SIZE	COLOR	UNIT	NOTE
452201ES	25mm	2 color mix	10 pcs	

Buffer beads are used in nearly all rigs from running rigs, to Chod and Helicopter rigs. Swivels sit perfectly inside the buffer bead, and they help to protect knots and keep everything covered.

LEAD CLIP

CODE	COLOR	UNIT	NOTE
440101ES	green	10 pcs	
440102ES	brown	10 pcs	
440103ES	grey	10 pcs	

The basic rule of the carp lead clip system is the lead must eject before the swivel pulls out. If the swivel comes out first the lead will never eject.

SAFETY LEAD CLIP

CODE	COLOR	UNIT	NOTE
440201ES	green	10 sets	
440202ES	brown	10 sets	
440203ES	grey	10 sets	

Set contains: Lead Clip 10pcs, Tail Rubber 10pcs and swivel size 8 10pcs. Available in weedy green, muddy brown and stoney gravel.

LEAD CLIP WITH TAIL RUBBER

CODE	UNIT	NOTE
SE8314043	10 pcs	

Set contains: Lead Clip 5pcs and Tail Rubber 5pcs.

XTRA CARP SAFETY SET

CODE	COLOR	UNIT	NOTE
440201ES	green	2 m + 4 sets	
440202ES	brown	2 m + 4 sets	
440203ES	grey	2 m + 4 sets	

Set contains: Lead Clip 4pcs, Tail Rubber 4pcs, swivel size 8 4pcs and tube. Available in weedy green, muddy brown and stoney gravel.

LEAD CLIP SET

CODE	UNIT	NOTE
SE8314044	1 set	

Set contains: Lead Clip, Tail Rubber and tube.

HELICOPTER

CODE	UNIT	NOTE
SE8314045	3 pcs	

Set contains: Tail Rubber 3pcs, swivel size 8 3pcs, rubber bead 3pcs and PVC tube.

SAFETY LEAD CLIP

CODE	COLOR	UNIT	NOTE
4401021ES	green	10 pcs	
4401022ES	brown	10 pcs	
4401023ES	grey	10 pcs	

The basic rule of the carp lead clip system is the lead must eject before the swivel pulls out. If the swivel comes out first the lead will never eject.

TAIL RUBBER

CODE	SIZE	COLOR	UNIT	NOTE
4522041ES	25mm	brown	10 pcs	
SE9142510	20mm	brown	20 pcs	

Tapered rubber 20/25mm that ensures neat connection between lead and anti-tangle tubing or lead core leader. Carp friendly design. Soft material allowing good anti-tangle retention.

LEAD CLIP

CODE	UNIT	NOTE
SE8314044	10 pcs	

The basic rule of the carp lead clip system is the lead must eject before the swivel pulls out.

HEAVY DUTY LEAD CLIP

CODE	COLOR	UNIT	NOTE
4401031ES	green	5 sets	
4401032ES	brown	5 sets	

Supplied in a pack with 5 clips and tail rubbers, these are similar in design to the traditional lead clip apart from they have a metal lead mount that is ideal when fishing at long range when extra pressure is applied to the lead clip thus eliminating clip breakage.

PRODUCTS SHOWN INCLUDING ON THIS PAGE IS 10 PCS

ANTI TANGLE BEADS

CODE	COLOR	UNIT	NOTE
791000	black	1 pcs	

Running Ledger beads with quick link snap. Ideal for leads, bombs, feeders etc.

Trade packaging 50 pcs.

ANTI TANGLE BOOM

CODE	LENGTH	COLOR	UNIT	NOTE

7910100	100 mm	black	1 pcs	
7910150	150 mm	black	1 pcs	
7910200	200 mm	black	1 pcs	

Anti tangle tube boom with snap link for attaching the lead.

Trade packaging 50 pcs

TUNGSTEN HOOKLINK

CODE	SIZE	COLOR	UNIT	NOTE
4502012ES	S	brown	15 pcs	

Weight in tungsten to put your rig on the bottom, very easy to use.

Trade packaging 10 pcs

BACK LEAD CLIP

CODE	COLOR	UNIT	NOTE
4601011ES	brown	4 pcs	

Keeping your line close to the bottom is important to prevent spooking wary fish. Add to this the fact that most modern braided lines float and cause problems when fishing at extreme distances. Trade packaging 10 pcs

ANTI TANGLE BOOM BENDED

Anti tangle tube boom with snap link for attaching the lead.

Trade packaging 50 pcs.

CODE	LENGTH	COLOR	UNIT	NOTE
7911100	100 mm	black	1 pcs	
7911150	150 mm	black	1 pcs	
7911200	200 mm	black	1 pcs	

LEDGER BEAD WITH SNAP

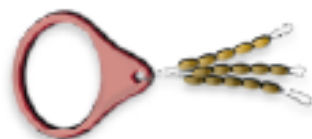

CODE	SIZE	COLOR	UNIT	NOTE
4481001ES	S	blue	3 pcs	
4481002ES	M	yellow	3 pcs	

These feeder beads are easy to use, just thread onto your line & stop with either a stop knot or swivel, they have a easy clip so you can quickly change feeder or lead to suit the conditions.

Trade packaging 10 pcs.

RUBBER RIG STOPS

CODE	SIZE	UNIT	NOTE
4501002ES	M	15 pcs	
4501003ES	L	15 pcs	
4501004ES	XL	15 pcs	

Stoppers are designed to peg your weight close to your hook on a punch or flipping rig.

Trade packaging 10 pcs

MAGGOTS

CODE	COLOR	UNIT	NOTE
5ER211001	red	25 pcs	
5ER211003	brown	25 pcs	

Lifelike imitation maggots that are neutrally buoyant so they sink like real maggots when hair rigged or side hooked. Trade packaging 10 pcs.

FLOAT'S ADAPTER

CODE	COLOR	UNIT	NOTE
4481011ES	black	3 pcs	
5ER899061	black	3 pcs	

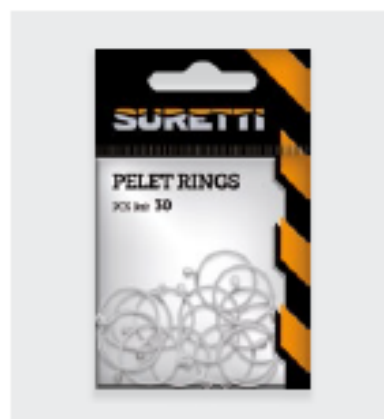

The plastic adapter is designed for attaching loaded floats without the need for shot. A product can be easily moved or removed for storage. Perfect for controller floats, bagging wagglers and floating method feeders. Trade packaging 10 pcs.

PELLET RUBBER RING

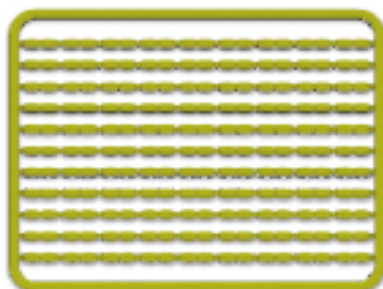

CODE	SIZE	COLOR	UNIT	NOTE
4605005ES	S	clear	30 pcs	
4605006ES	L	clear	30 pcs	

Small silicon rings for securing hard pellets to the hook. In three sizes for pellet sizes from 5 to 12 mm. Trade packaging 10 pcs

BOILIE STOPS SOFT

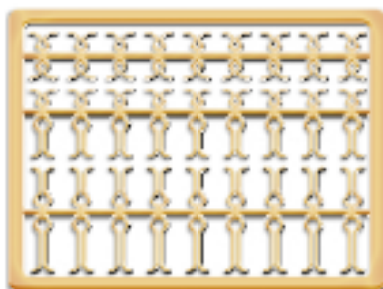

CODE	UNIT	NOTE
451000ES	1 pcs	

They are discreet and buoyant, and will hold your bait securely – whether you choose to fish a boilie, pellet, corn or any other hair-rigged bait.

Trade packaging 10 pcs

BOILIE STOPS MULTI

CODE	UNIT	NOTE
4510004ES	1 pcs	

These hair extender stops have been specially designed to hold your hook bait on the hair safely and securely.

Trade packaging 10 pcs

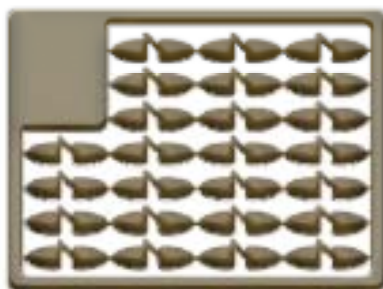

BOILIE STOPS

CODE	UNIT	NOTE
4510002ES	1 pcs	

These stops were specifically designed to fold into the bait – if required – which makes sizing the gap between the boilie and hook bend much easier especially when using different size baits on the same length hair.

PELLET PEGS

CODE	SIZE	COLOR	UNIT	NOTE
4510010ES	S	brown	1 pcs	
4510011ES	L	brown	1 pcs	

The profile of the Pellet Peg has been shaped to ensure it provides a secure anchor point even when the pellet has begun to soften in water. This stops the hair from pulling through on the cast and during fishing. It also prevents the ammocetes of small fish 'pecking' at the bait and working the hair stop out of the loop.

Trade packaging 10 pcs

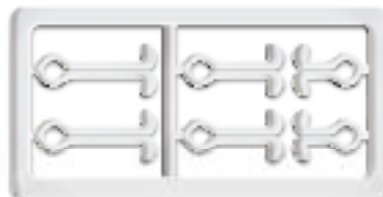

BOILIE STOPS

CODE	UNIT	NOTE
4510001ES	10 pcs	

Boilie stops are used to hold your baits in place in conjunction with the loop of a hair rig. They are small and unobtrusive.

CONTOUR BOILIE STOPPER

CODE	COLOR	UNIT	NOTE
4510005ES	clear	3 pcs	

The boilie stops pull in to the bait ensuring a tight hold.

Trade packaging 10 pcs

POP UP ELEMENTS

CODE	COLOR	UNIT	NOTE
4510001ES		10 pcs	

These stops are mounted very quickly. Simply and elegantly drill into floating baits instead of time-consuming and complicated binding. A strong thread provides outstanding resistance when fixed.

POP UP STOPS

CODE	SIZE	COLOR	UNIT	NOTE
4510021ES	10 mm	clear	10 pcs	
4510022ES	10 mm	red	10 pcs	
4510023ES	10 mm	yellow	10 pcs	
4510024ES	10 mm	orange	10 pcs	

The ultimate solution for attaching pop-ups to Chod, Zig and .D' rigs. Hookbait can be screwed onto the pop-up peg, eliminating the need for bait floss. Concave disk seals the hole in your bait, preventing it from taking on water. Coarse thread provides exceptional grip to ensure baits are retained during cast.

Under plastic part is a rubber ring that protects the tent rope against abrasion. The set is delivered in a scrolling pickpockets made of 600D Oxford material and with covers for tips pins.

BIVVY THERAPY 2MAN

Code: 6121020ES

Unit: 1 pcs

Note:

- Overwrap: 210D PU/Nylon, Bedroom: polyester
- Water column: 5000 mm
- Atria, Removable bottom, Taped seams
- 4 × glass-fiber pole, 24 × „T“ Peg, 9 × anchoring ropes,
- Dimensions: W 280 x L 320 x H 150 cm
- Transport: 80 x 21 x 21 cm, Weight: 8,5 kg

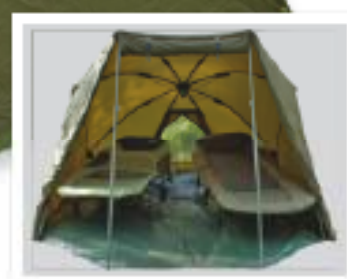

Bivak Therapy 2man is made of 210D PU Nylon, which has a 5000mm water column. The seams are taped, the structure consists of four fiberglass rods [folding] and the anchor is using pins. The Bivak has an internal bedroom for two bedchairs. Bottom part is removable and fixed by velcro. The front door and, if necessary, both front sides can be rolled up. At the back there are two ventilation windows with a mosquito and in the middle there is a hook for hanging the lamp.

BIVVY BALANCE 2MAN

Code: 6122020ES

Unit: 1 pcs

Note:

- Overwrap 210D Nylon, Umbrella frame
- Water column: 3000 mm
- Taped seams, Removeable bottom
- 14x „T” Peg, 4x telescopic bars, 4x anchoring ropes
- Carrying bag
- Dimensions: W 230 x L 240 x H 150 cm
- Transport: 150 x 23 x 23 cm, Weight: 8,5 kg

Balance 2Man is an umbrella frame bivouac designed for two bedchairs. The entrance and the two sides can be rolled if necessary, the bottom is fixed by velcro. The shelter is anchored around the perimeter by means of screwdriving pins [in basic equipment are made of steel with a metal head with capability of driving], the front with four telescopic rods and in the event of bad weather, four anchor strings (two in front and one on each side). The bivouac is made of 210D Oxford-Nylon with a 3,000-mm water column that is sufficient and does not drain water or heavy rain during testing. All seams are taped. The Overwrap Balance 2Man is made of the same material. You can heat up the space and can also be used for overnight stays in extreme temperature conditions.

BIVVY BALANCE S+

- Water column 10 000 mm
- Shelter with removable front side with a zipper
- Taped seams + 18 x peg
- 2 x telescopic bar 60 cm
- 2 x telescopic bar 120 cm
- Inbus spanner size 3
- 4 x anchoring ropes
- Removeable bottom
- Carrying Bag
- Dimensions 270x230x138 cm
- Transport 180x20x20 cm
- Weight 12,5 kg

Code: 6122010ES

Unit: 1 pcs

Note:

Balance S+ the basic accessories also includes a removable front side with zipper entrance and high-quality removable groundsheet with resistance of 10 000 mm of water column. Entrance is through a roll-up mica window with a mosquito net. There are triangular ventipanes with a mosquito net on the sides of the entrance. The entrance and both sides can be rolled up, if necessary, or fully remove using the zipper. The shelter is to be anchored on all sides using screw pegs [the basic accessories contain steel pegs with a metal head with possibility of hammer it in], using four telescopic bars on the front side and in case of bad weather conditions, four anchoring ropes can be used to ensure better stability [two in the front and one on each side]. The shelter is made of PU 210D Oxford-Nylon with resistance of 10 000mm of water column. All seams are taped. You can buy a cover Balance Winter 10k made of the same material for heat-insulating the space and using it for staying overnight in conditions of extreme temperatures.

BIWY EMOTION S

- Water Column 10 000 mm
- Permeability of vapour 10 000 g/m²
- Taped seams + 18 x pegs
- 3 x integrated sectional frames
- 3 x strut telescopic bars
- 4 x anchoring ropes
- Carrying bag
- Removeable bottom
- Dimensions 300x240x140 cm
- Transport 98x24x24 cm
- Weight 13 kg

Code: 6123010ES

Unit: 1 pcs

Note:

Emotion S is a shelter of a simple but stable structure for one person. Divided frames made from highly solid 20 mm Dural 6061 T6 (used in aviation) are integrated directly in the shelter, so it is very easy and fast to put it up, like the pram shed. It is made of HydraTex-10000 with membrane of vapour permeability. It means the material has resistance of 10 000 mm of water column and on the other hand it permeables 10 000 g for 1 m²/24 h. All seams are taped. The entrance has a mica window with a mosquito net, there are ventipanes in the front and at the back and the entire front side can be rolled up, if required. The basic accessories also include a high-quality removable groundsheet with a zipper and with a rupture resistant PU coating of 15 000 mm of water column. The shelter is to be anchored on all sides using screw pegs (the basic accessories contain steel pegs with a metal head with possibility of hammer it in) and using four anchoring ropes on the front side in case of bad weather conditions. To hold the shape, the shelter has a strap for tying the base and three telescopic braces on frames. You can also buy the Overwrap Emotion Winter S for the shelter.

BIVVY EMOTION XH

- Water column 10 000 mm
- Permeability of vapour 10 000 g/m²
- Taper seams + 18 x pegs
- 3 x integrated sectional frames
- 3 x strut telescopic bars
- 4 x anchoring ropes
- Carrying bag
- Removeable bottom
- Dimensions 378x300x175 cm
- Transport 122x26x26 cm
- Weight 16 kg

Code: 6123020ES

Unit: 1 pcs

Note:

Emotion XH is a shelter of a simple but stable structure designated for as many as three persons. Divided frames made from highly solid 20 mm Dural 6061 T6 [used in aviation] are integrated directly in the shelter, so it is very easy and fast to put it up, like the pram shed. It is made of HydraTex-10000 with membrane of vapour permeability. It means the material has resistance of 10 000 mm of water column and on the other hand it permeables 10 000 g for 1 m²/24 h. All seams are taped. The entrance has a mica window with a mosquito net, there are ventipanes in the front and at the back and the entire front side can be rolled up, if required. The basic accessories also include a high-quality removable groundsheet with a zipper and with a rupture resistant PU coating of 15 000 mm of water column. The shelter is to be anchored on all sides using screw pegs [v the basic accessories contain steel pegs with a metal head with possibility of hammer it in] and using four anchoring ropes on the front side in case of bad weather conditions. To hold the shape, the shelter has a strap for tying the base and three telescopic braces on frames. You can also buy the Overwrap Emotion Winter XH for the shelter.

OVERWRAP BALANCE 2MAN

- Overwrap: 210D Nylon
- Water column: 3000 mm
- Taped seams
- 10x „T” Peg
- Carrying bag

VS 7070

Code: VS707000
 Size: 43,4 × 23,3 × 27,1 cm
 Unit: 1 pcs
 Note: CZ-SK *

Možnost vložení krabičky VS 506, VS 706, VS 806, SFC L, VS 3010, VS 3020 a RunGun W. Kufr má velmi pevnou konstrukci, lze v něm nosit cokoliv co unesete. Šest variabilních dělicích přček v horním prostoru a dvě ve spodním úložném prostoru. Pogumovaná rukojeť s pojistkou proti náhodnému otevření. Víko lze odklopit o 180 stupňů a podepřít rukojeť, vznikne tak odkládací stolek.
 Materiál: Nárazuvzdorný kopolymer, kryty polykarbonát.

Pogumovaná AntiSlip rukojeť.

Na spodku jsou protiskluzové gumy. Kufr bude držet na místě i při použití na lodě.

Rukojeť má posuvný zámek, který zabrání nechtěnému otevření víka při přenosu.

Do horního prostoru víka lze vložit krabičky SFC L.

Po odklopení víka slouží rukojeť jako podpora a lze víka jak lze použít jako stolek či odkládací prostor.

Do spodního prostoru lze vložit krabičky typu VS 3010, VS 3020 nebo RunGun W.

BM-230

Rod Stand BM-230 je velmi užitečným doplňkem pro box Versus VS707000 Black, je pevně připojen ke kufru, je nastavitelný (26,5 cm až 37 cm) což umožňuje dát do stojanu téměř jakýkoliv prut. Horní část stojanu je pogumovaná, což eliminuje jakékoliv poškození prutu a navijáku.

VS 8050

Horní a přední panel je vyrobený z polykarbonátu.

V horním prostoru mohou být uloženy tři krabičky W69 nebo WF3.

Do hlavního prostoru lze umístit krabičky VS 820ND, VS 820NDM, VS 4060, SFC L, např.: 1 – VS 4060, 7 – SFC L, 2 – VS 820ND (NDM) (všechny uvedené krabičky se prodávají zvlášť).

Přední panel lze po vyklápení zasunout do kufru, aby při použití zůstal zavazadlo nepřekážlivé.

Vrchní a boční víko mají dvojitý zámek, takže nikdy nedojde k jeho neočekávanému otevření.

Pantly jsou vyrobeny z vysoce odolné nerezové oceli.

Na obou stranách jsou integrovány držáky na klíče nebo paň a 4 připeřítka na zavěšení nástrojů.

Tělo je vyrobeno z nárazuvzdorného polymeru.

Boky jsou vyztuženy profily z hliníkové slitiny aby byla maximálně zvýšena pevnost kufru.

Zásuvky mají zámek proti vypadnutí, když je kufr uzavřen. Všechny zásuvky lze vymout a nahradit krabičkou VS 2065 (všechny uvedené krabičky se prodávají zvlášť).

Možnost vložení krabičky SFC L, VS 3045, VS 820ND, VS 820NDM, VS 4060. Kufr má velmi pevnou konstrukci, lze na něm sedět a nosit v něm cokoliv co unesete. Přední a horní panel je z polykarbonátu a boční stěny jsou zpevněné hliníkovým profilem.

Materiál: Nárazuvzdorný kopolymer, kryty polykarbonát, zámky ABS, boční výtluha z hliníkové slitiny, zásuvky Worm Proof.

VS 3080

Kryt je z velmi houževnatého a odolného materiálu.

Mikrobrovčání v horní části kufru vám dovolí využít každý kousek prostoru. Přepážky mohou být přitlačovány do mnoha různých variant. Můžete vložit krabičku typu SFC LL a tříWG 9 nebo WP 3 (všechny uvedené krabičky se prodávají zvlášť).

Jestli zámek vlika zamezí nechtěnému otevření horní části při jeho odklopení.

Horní část má na bocích odvětrávací otvory.

Přepážky ve spodní části mohou být přitlačovány do mnoha různých variant. Můžete vložit čtyři krabičky SFC LL plus dvě VS820ND (NDM) nebo sedm VS820ND (NDM) (všechny uvedené krabičky se prodávají zvlášť).

Tělo je vyrobeno z nárazuodolného polymeru.

Na spodní části kufru je rukojeť s pojiskou proti otevření. Pokud rozkliknete zámky kufru, rukojeť při přetáhnutí nedovolí jeho otevření (samo pojistka není určena na běžné nětění, dbejte vždy, aby zámky byly vždy uzamčeny).

K zajištění funkčnosti a dlouhé životnosti je kroužek zámku z nerezové oceli.

Pentky jsou vyrobeny z vysoce odolné nerezové oceli.

2 – přepážka na zafixování díry, wobblerů nebo pilků.

Do prostoru s příčkami na víškové straně lze vložit kufr VS 4060, který se prodává zvlášť.

Můžete vložit krabičky SFC F.

Na obou stranách je držák kleště nebo pásmu. Ten je tvarován tak, aby se dal použít když kufr položíte nebo i postavíte.

Na spodku jsou protisklizové gumy. Kufr bude držet na místě i při použití na ledi.

 Depth: 20 mm

VS 355SD

Code: VS035501
Size: 9,7 x 6,4 x 2,5 cm
Unit: 1 pcs
Note: CZ-SK *

5 + 5 uzavíratelných přihrádek.
Materiál: Tělo ABS a POM
pryskyřice, víko polypropylen.

SPACE 1
• A: 25 mm
• B: 25 mm
• C: 38 mm
Depth 7 mm

SPACE 2
• A: 25 mm
• B: 25 mm
• C: 38 mm
Depth 12 mm

Přihrádky jsou zaoblené, takže je do nich pohodlný přístup. Každá přihrádka se otevírá zvlášť, což zneumožňuje vysypání nebo smíchání obsahu. Krabička je dvoudílná, skládá se pomocí pružiny na polovic (jako telefon), takže je velmi skladná a dá se otevřít jednou rukou.

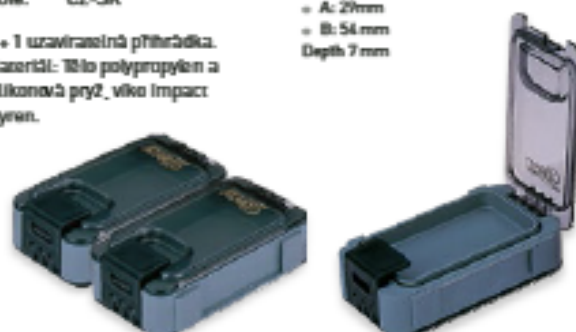

VS 410

Code: VS041000
Size: 7,4 x 4,4 x 2,5 cm
Unit: 1 pcs
Note: CZ-SK *

1 + 1 uzavíratelná přihrádka.
Materiál: Tělo polypropylen a
silikonová pryž, víko Impact
stýren.

• A: 29 mm
• B: 54 mm
Depth 7 mm

Vedlejší, oboustranná krabička která má zaoblené přihrádky, takže je do nich pohodlný přístup. Krabičky na sebe mají zámek, díky němuž je lze na sebe napojovat v libovolném množství.

HOW TO FIX - GLUING PATCHES:

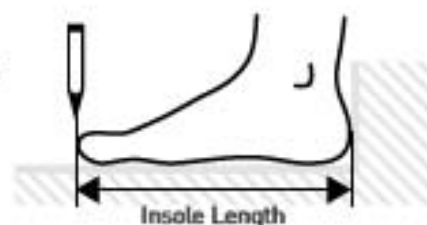

- Ensure that the working area is clean and dry
- Use cap to make a hole in the tube with glue.
- On both surfaces, apply a thin layer of glue and let it wither.
- On both surfaces, apply a second layer and wait until it becomes sticky.
- Apply the patch on the adhesive place and then both materials press gently together for 24 hours.

GROUND BAIT COMPRESSOR L

Ground Bait Compressor can be used with ground bait mixtures, soft pellets or particles. Compressor allows creation of cylinders with hollow core, which can be hung on the hook link. This eliminates the need of PVA material. Where the moisture of PVA material dissolved can be used compressed cylinders of Ground Bait Compressor.

2 pieces of Bait Stopper (1x 25g a 1x 45g) are included

Fishing Groundbaits manufactured of selected natural ingredients ensure effectiveness on all kinds of fishing venues. Smell additives used in groundbait perfectly act for carp fish family.

Trade packaging: 10 pcs (1 kg), 5 pcs (2,5 kg)

FEEDER - vnaclí směs určená k feederovému lovu všech druhů ryb. Charakteristická směs, silně a okamžitě přiláká, používá se na jezerech, rybnících, kanálech a říkách.

KARP - vnaclí směs s ovocnou příchutí. Vhodně zvolená příchutí a granulace složek umožňuje rychle zavádět a dlouho udržovat kapry v lovišti. Vnaclí směs je možno ochutit ořechem či aromatisovanou kukuřicí z konzervy.

LESZCZ - vnaclí směs určená k lovu cejnů. Přidáním perníkové a ořechové moučky a kokosové mletiny výrazně zlepšuje její elektivitu. Během rybaření v řece je nutno ke směsi přidat lepidlo a zadržet šotrkem nebo hlinou.

PLOČ - vnaclí směs určená k lovu ploutí. Vyrobená na základě vhodně zvoleného pečiva a olejnatých zrn obilných silno druhem ryb. Účinnost směsi se zlepšuje přidáním vařeného nebo praženého konopí.

ŘEKA - složka dobře se lepící vnaclí směs určená k lovení na říkách. Tato směs umožňuje rychle nasažit ryby do loviště. Přidáním vhodných návnadových a chutových přísadků je možno směs usměrnit na určitý druh ryb nacházejících se v řece.

UNIVERZÁLNÁ - univerzální vnaclí směs z přírodních složek je určena pro lov kaprovitých ryb. Během rybaření v řece je nutno k návnadě přidat lepidlo a zadržet šotrkem nebo hlinou.

The Winter Ready Groundbait purposed for fishing in cold months and under ice fishing. The mix is ready for direct use. Elimination of wetting and riddling is its main advantage. We can use the groundbait without cooling the palms. It is packed into a comfortable string bag. You just have to take a handful, form a ball and throw into the water. Releasing the particles step by step attracts the fish strongly. In order to increase the catch rate add jokers or bloodworm. Winter Ready groundbait concentrate the fish in a spot and keep them feeding for long. Additionally the Perch Ready is enhanced by another attractant – the holographic brocade.

In order to meet the most demanding carp and grass carp anglers criteria we developed extremely modern groundbait Method Mix Expert series. The groundbait is composed of the richest ingredients such as thermally processed grains, selected flours with high protein content. Perfect groundbait action was achieved thanks to an addition of oil rich particles and thermal processing. Method Mix can be used in feeders adding water, oil or liquid aromas to it. When feeding in PVA bags you can add only the Liquid Food Expert or Booster Expert to it. Method Mix is acting very quickly attracting the fish and keep them feeding for a long time.

This exclusive bait mixture is ready for immediate use. It consists of the richest natural ingredients, such as heat-treated grains with a high content of oils and selected meal with a high protein content. Perfect action of mixture is achieved by adding of particles rich on aroma.

If you are baiting by using PVA materials, just add a booster of your choice. This mixture exciting fish very quickly and can keep them for long time on fishing spot. The mixture can be completed by other ingredients, respectively. white worms or bloodworm.

Thanks to a well-balanced mix consistency can be used for fishing technique Method feeder, or to the formation of balls for baiting fishing spots.

NEW

Special bait pellets designed for fishing technique Method Feeder. The pellets consist of natural components with specific adhesive properties, which gradually releases micro-particles with aroma. The solubility of these pellets is from 30 to 60 minutes. A method for preparing the application is very simple: Pellets cover with water, and after one minute strain through a fine sieve. The second method is the stepwise addition of small amount of water, stirring until desired consistency. After several minutes, the pellets are ready for use. You can shape the ball to baiting fishing location, or use it into the feeders. The pellets can be used as a supplement to feeder's mixture.

Dear traders,

Besides wholesale activities EGERFISH also manufactures fishing weights and feeders. We benefit from over 29 years of manufacturing tradition. 80% of production is exported. Factory is based in Czech Republic.

Our facilities are equipped with modern technology, including finishes. The main advantage is a fast, high quality, low volume production according to customer requirements. The average time from design to goods in your warehouse is 60 days. With us you have the possibility to design their own shape, with own logo, use a special color combination, or packed in packaging exactly to your requirements [OEM]. Everything is made that your goods are clearly distinguished from competitors' products.

On the previous page you can see a list of standard, quality and tested components, which are used for different kinds of assembly. They are in 1: 1 scale in order to get your product easily adjusted. It is of course no problem to use any other components. We have good, fast, proved and quality suppliers from around the world.

Products that we present in the following pages are our standard products and are immediately available. Custom-made articles are not present, are owned by our customers, and tools for their manufacture are used only for them. Nobody else can use these custom-patterns.

On first two pages you can see our new LeadFree assortment. Our goal is to manufacture a range of environmentally-friendly weights that anglers cannot distinguish between those that are made of lead and lead-free alternatives. They will perform in exactly the same way - nothing will change for the angler. We see this as the most important argument for anglers to use them instead of lead.

For any questions feel free to call. Our team is always happy to advise you.

We wish you to have nice experiences on the water.
