**R-S-A**

# R-S-A

Dear customers,

We are pleased to introduce you our new catalogue of WINTER products with our traditional brands. As the name suggests, we have prepared a selection of the most popular products for you.

Not only top level athletes will be able to choose from our catalogue but also people who want to spend their winter for funny. Our main target is to provide the best services for our customers. We want you to receive the goods on time, in the best quality, with reasonable price.

We wish that you will have perfect experiences on the snow, and our products will become an integral part of your winter activities.

## ICE BLADE

Ice blade are the most traditional skates for the kids. They were created for the youngest who can skate on the ice surface. Double blades can provide the necessary stability for small skaters. Through simply turning the wing nut to adjust the size, tie the skates by two plastic straps for the skating funny!

- Adjustable size to fit different age children!
- We change the size of the skate by simply enabling the wing nut. You can use shoes that have an outsole length in 14.5 to 20 cm (EU 24-31). Children can play in more winter seasons.
- The skates are made of high quality carbon steel.
- Each skate has two plastic straps with buckle. The upper strap also with synthetic leather to add comfort.
- Max. Load capacity: 35 kgs
